The island of Cozumel itself was a sleepy little fishing community until 1961, when a Frenchman by the name of Jacques Cousteau declared it one of the most beautiful scuba diving areas of the world; famous for its world class drift diving that features dramatic walls and abundant coral reefs inhabited by eels, turtles, toadfish, rays and nurse sharks.. Since that time Cozumel has become an underwater marine park to protect the delicate balance of its dazzling coral reefs & abundant variety of tropical fish. The underwater wildlife is absolutely amazing here!

The topside adventures are equally exciting, with white sandy beaches, great nightlife and a tremendous variety of shopping.
